Experience:

June 27th, 1991 - present (25 years)

Founder, President and CEO of J.T.V., Incorporated.

J.T.V., Inc. (www.jtv-cipp.com) has grown from a 2 person sewer cleaning & inspection company to a multi-million dollar contracting company specializing in the rehabilitation of wastewater collection systems and storm drains. The company's main business (by dollar volume) is the installation of cured-in-place pipe (CIPP) liners in long runs and of various diameters between manholes for municipalities and government agencies. The company still performs contract sewer line cleaning and pipe television inspection services, but also offers complete Inflow / Infiltration Evaluation Studies, chemical grouting of leaking sewer pipe joints (referred to as test & seal), sectional CIPP lining (localized point repairs), lateral sewer lining, manhole lining and lift station rehabilitation. JTV, Inc currently employs 32 field personnel, 2 mechanics, 2 warehouse / production persons and 3 office personnel (37 total).

Current duties include contract work sales, bid preparation, project planning, contract administration, scheduling of work crews, human resources, employee safety training programs, government compliance, company banking, bonding, equipment and material purchasing.

1980 to 1988

Manager of Computer Operations, Rutland Bank of Pinellas County
